

KPT HIPPO Addons for Resolume

Thank you for your purchase!

This addon, as published, will work with Resolume Arena v7.10 and above.
(it is possible this addon will work on versions below 7.10 but this is not guaranteed or supported)

Every addon can be installed on a main machine & a backup one.
Please purchase more licenses if you need to install it on more machines (Hey it's really cheap!)
Selling or sharing this addon is prohibited.

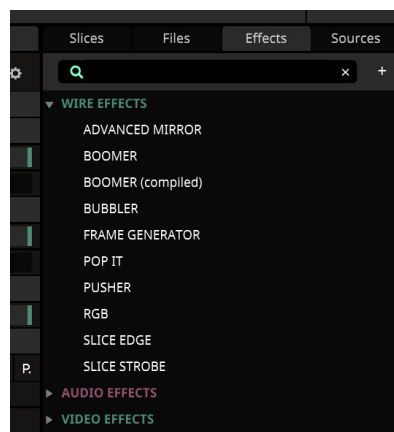

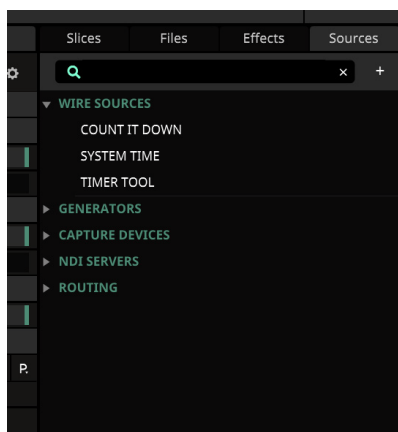

To install just double click the addon while resolume is turned off.

If installation is not working for you, copy the addon to:

WINDOWS:
C:\Users\Public\Documents\Resolume Wire\Patches
(If directory is not available, create it)

OSX:
Users\{username}\Documents\Resolume Wire\Patches
(If directory is not available, create it)

The addon will be shown under WIRE EFFECTS or WIRE SOURCES
